DIVISION OF THOR

### THE CLASSIC XT Model 844 SB-3

The XTendable Series' Classic XT has all the comforts and amenities of a seasonal cottage.

Strategically placed XTensions in the living room and bedroom offer an expanded width of just under 12ft, maximizing these living spaces.

Household appliances and 110 volt lighting make the Classic XT a home-away-from-home.

The two-tone aluminum exterior features a 60in patio door, a multitude of large windows and taller 7ft 6in ceilings. The roof is covered with a one-piece T.P.O. membrane with a 12-year warranty. Optional shutters are available in six colors.

Breckenridge products meet or exceed the required RPTIA code. Most models are available with CSA approval.

The photographs in this product literature show Breckenridge standard items and feature some of the many Breckenridge options.
